Square-Shaped Ipe Deck

Our deck tiles are made from tropical Ipe wood, known for its high durability. It is ideal for outdoor use due to its natural resistance to weather conditions and insects

Are the square tiles resistant to water and sunlight?

Yes. The wood used is naturally resistant to moisture, UV rays, and climate variations. However, regular maintenance is recommended to preserve its original appearance.

What maintenance is required?

To maintain the wood's original color, a specialized deck oil can be applied once or twice a year, preferably before and after summer.

Do I need special tools for installation?

No. The deck tiles allow for a simple and practical installation, without the need for special tools or professional labor.

Can it be used on balconies or around swimming pools?

Yes. The deck tiles are perfect for balconies, terraces, patios, and even poolside areas.

Is it possible to remove or relocate it after installation?

Yes. The deck tiles can be easily removed and reinstalled without major complications.

What is the durability of the deck tiles?

With proper care, they can last many years, depending on maintenance.

What is the price per square meter?

Contact us for a personalized quote.

Do you offer installation services?

We do not provide installation services, but they are not necessary since this is a product that anyone can install by themselves, without any additional costs in the assembly process!

*On the purchase of 10m²
